

KUNDALINI PRESENTS "NAMI WALL"**Design: Alberto Saggia & Valerio Sommella, 2020**

Elegant and mysterious. A wave of glass and light emerges from an essential metal element. Precious grooves reveal multiple light refractions. Nami, "wave" in Japanese, unleashes the reflections of the sea in a continuous play of perspectives. The project of Alberto Saggia & Valerio Sommella combines technique and aesthetics in an original synthesis, now also in the functional wall-mounted version, alongside the suspended model. The diffuser is in curved glass and its texture creates sophisticated iridescent effects. The structure is in die-casted varnished aluminium.

Wall lamp with textured and curved glass diffuser. Die-casted varnished aluminium structure.

Dimensions	L 30 x W 9 x H 18 cm
Colours	Brass, black
Bulbs	Board Led 1x12W - 2700 K - 1750 lm - CRI>90
Feeding	220-240 / 120 V

Designer: Alberto Saggia & Valerio Sommella

Both graduated from the Politecnico of Milan in 2004, the first with a specialization in lighting design and more than 10 years of collaboration with the Metis Lighting studio, he founded the Anonima Luci studio with Stefania Kalogeropoulos in 2018, the scope of their activity ranges from lighting design to product design. The latter with an experience strongly linked to product design started in major design studios between Milan and Amsterdam. Since 2009 they collaborate specifically in the design of objects related to the lighting world, combining a technical vision with an aesthetic approach based on formal, material, technological and functional innovation.
