POISE

table lamp, 2021
design by Robert Dabi

Poise by **Robert Dabi** is created as an **interactive project** with which to establish an empathetic relationship: the table lamp, indeed, is an invitation for play and movement, piquing curiosity. A circle of light and a metal rod, give the opportunity to **move the light source up to 320 degrees** creating ever-changing configurations in a light way. The solid T-shaped base acts as a counterweight. Interaction is simple and intuitive, allowing for experimentation with different perceptions of light, thanks to the **dimnable mechanism**.

| | |
|--------------|------------------------------------------------|
| Dimensions | ø 48.5 x W 11 x H max 109 cm |
| Materials | Diffuser and structure: matt metal |
| Colours | Black |
| Light source | board LED 1x13.5W 2700 K - 1050 lm - CRI>90 |
| Feeding | 220-240 / 120 V |

Designer's Biography: Robert Dabi

Robert Dabi is based near Nuremberg, where he practices interdisciplinary design. Since he started to work as a creative in around 2002, he gathered experience in various fields such as illustration, graphic design, interaction design and photography. He also worked as media designer with the biggest tech start-up incubator of his region. He started with product design in 2010 while co-founding a watch brand with friends in Hong Kong. Products he created were sold worldwide, and in places such as MoMa Design Store or the Dezeen watch store. Driven by curiosity, he is constantly exploring new areas of creativity. This lead him to lighting design, that has always been his passion. He freely experiments with different materials and concepts to create lighting objects. The first lamp he published won the Platinum A' Design award in 2020.
