BIRD CEILING

ceiling lamp, 2024

design Jordi Pla

Bird Ceiling di **Jordi Pla**. A lamp that makes a statement through its size and simplicity. The metal rods of varying lengths, that can be combined in different ways, are connected by a magnet to a spotlight. Whether used at home or for lighting in a commercial setting, Bird Ceiling subtly illuminates spaces.

Designer's Biography: Jordi Pla

In 2003, Jordi Pla worked as an intern at André Ricard's studio. For a long period of time he worked and collaborated with different companies and professionals linked to the world of design. Finally, in 2011 he created his own design studio Jordi Pla Studio. The creation of the studio marks the beginning of a new professional stage in which he has created a wide variety of designs focused on different market sectors such as: furniture, lighting, urban furniture, home furnishings, accessories, packaging, as well as experimental and introspective projects.
