TRATTO FLOOR

floor lamp, 2025
design Oliver Schick

Tratto Floor by **Oliver Schick**. It reinterprets the suspension version by flipping it upside down and projecting it upwards with sculptural momentum. A change of perspective. The elongated silhouette harmoniously integrates into the environment, becoming a visual and sensory landmark. A vertical sign that illuminates with personality, interacts with space, and traces new paths of light.

Bulbs	Board Led 3x15W 2700 K – 4350 lm – CRI>90
Feeding	100-240 V

Designer's Biography: Oliver Schick

Oliver Schick, born in 1969 in Darmstadt, studied product design at HBK Saarbrücken. After working as a freelance designer, he founded his own studio in 2005, focusing on furniture, lighting, and interior design. He explores experimental projects on materials, functions, and sustainability. His design approach aims to create products with strong character—simple, functional, yet rich with small, unexpected details that spark emotions and associations, striking a balance between function and storytelling.
